

PUBLIC NOTICE
Lincoln-Lancaster County Health Department (LLCHD)
Pollution Prevention/Air Quality Section

In accordance with Article 2, Section 14 of the Lincoln-Lancaster County Air Pollution Control Program Regulations and Standards (LLCAPCPRS) the public is notified that Telex Communications, Inc., 8601 East Cornhusker Highway, Lincoln, Nebraska has submitted an application to amend the following air quality permits that have been previously issued to this plant: (1) The air quality construction permit, No. 098A, for the speaker horn manufacturing facility that was issued in 2001; and (2) The Class II Specific Operating Permit that was renewed in 2004. Telex is requesting that condition 6c) of the construction permit and specific condition (L) of the operating permit be amended to allow an operational startup time for this facility of 6:00 am rather than 6:45 am, which is the startup time established in the current permits. The proposed permit revisions would allow this facility to operate a total of 45 minutes longer each working day than at present.

The LLCHD has reviewed this request and has determined that there will be no adverse impact on ambient air quality in the vicinity of this plant as a result of allowing this minor extension in the daily operational hours for this facility. The proposed revisions do not affect any of the emissions or material use limits that have been previously established in these permits to protect air quality.

Currently, Lincoln-Lancaster County is classified as an attainment area for all of the pollutants addressed by the National Ambient Air Quality Standards (NAAQS) and the proposed permit revisions will not jeopardize maintenance of this classification. It is noted that odor is the issue of concern with respect to these revisions and this proposed action does not involve most of the air pollutants addressed by the NAAQS except for volatile organic compounds (VOC), specifically styrene.

The LLCHD is recommending issuance of amended construction and operating permits to Telex Communications, Inc, in order to allow the minor extension in operating hours for this facility.

The name, address, and telephone number of the agency proposing to issue the amended construction and operating permits are as follows:

Lincoln-Lancaster County Health Department
3140 "N" Street
Lincoln, NE 68510-1514
(402) 441-8040

Copies of the draft construction and operating permit revisions, the permit application, and other relevant information are available for review during business hours at the office of the LLCHD, 3140 "N" Street, Lincoln, Nebraska. Telephone inquiries may be directed to Gary Walsh at (402) 441- 8039. If alternate formats of materials are required, please notify the

LLCHD at (402) 441-8040.

Any interested agency, person or group may request or petition the Director of the LLCHD, in writing, within the 30-day comment period of the public notice for a public hearing and state the nature of the issues to be raised and all arguments and factual grounds supporting their position. The Director may hold a public hearing if the comments, requests, or petitions raise legal, policy or discretionary issues of general application not pertaining solely to a particular party and significant public interest exists with respect to the application.

Comments may be submitted in writing to the LLCHD prior to the close of the 30-day public notice period. Comments received during the 30-day public notice period, on or before September 1, 2006, will be considered prior to the final decision to issue the proposed amended construction and operating permits.

Comments should be mailed to:
Rick Thorson, Assistant Chief
Pollution Prevention/Air Quality Section
Lincoln-Lancaster County Health Department
